Weekly
Roundup

WR 3-87

Jan. 22, 1987

The Foreign Agricultural Service of the U.S. Department of Agriculture today reported the following developments in world agriculture and trade.

GRAIN AND FEED

USSR Publishes Farm Production Totals. The 1986 Soviet plan fulfillment report issued in Pravda on January 18 contains the following grain production data:

	Million Tons
Total Grain	210.1
Wheat	92.3
Corn	12.5
Rice	2.6

Total grain yields averaged 1.8 tons per hectare, the second highest on record. A record 1.82 tons per hectare was set in 1978 when output totaled 237 million tons.

Other production data in the report are:

Sugar beets	79.3 million tons
Cotton (raw)	8.23 million tons
Sunflowerseed	5.3 million tons
Potatoes	87.2 million tons
Vegetables	29.7 million tons
Meat (Slaughter Weight)	17.7 million tons
Milk	101.1 million tons
Wool	465,000 tons
Eggs (billions)	80.3

On the industrial side, total vegetable oil output was put at 2.9 million tons and granulated sugar (from all sources of raw material--including imports) 12.7 million tons.

OILSEEDS AND PRODUCTS

MALAYSIA To Sell Palm Oil to IRAN. Malaysia is nearing an agreement to export palm oil to Iran. Iranian and Malaysian officials met to sort out certain technical details before the agreement can be signed. In the past, Iran has refrained from buying palm oil, but does import over 300,000 tons annually of soybean oil, mainly from Brazil.

DAIRY, LIVESTOCK AND POULTRY

USSR Reports Livestock Inventory. The Soviet livestock inventory on January 1 shows cattle, hog, sheep and goat numbers up from a year ago, but fewer cows. The 1986 plan fulfillment report, published in Pravda on January 18, gave the following data on the USSR livestock herd as of January 10 in million head:

	1986	1987
Cattle	120.9	121.9
of which cows	42.9	42.5
Hogs	77.8	80.0
Sheep and Goats	147.3	148.0

MEXICO Sets Higher 1986/87 Cattle Export Quota. Mexico set a national cattle export quota of 1,070,000 head for the 1986/87 season (Sept/Aug), according to the U.S. agricultural counselor in Mexico City. This compares to a quota of 964,000 head in 1985/1986. Despite the higher quota, a limited supply of male animals of appropriate age and weight is expected to constrain 1986/87 exports to 800,000-900,000 head. Almost all Mexican cattle exports go to the United States, with most shipments being feeder cattle (200-700 lbs.).

Good pasture conditions in the southern and northern cattle-raising areas of Mexico have allowed the government to up the export quota. Higher U.S. versus Mexican beef prices, reduced demand for beef in Mexico, and Mexico's pressing need to earn foreign exchange also are encouraging larger cattle exports.

The cattle export quotas set by Mexico for the previous five years (1981/82-1985/86) averaged 663,000 head, much below the 1986/87 quota of more than 1 million. Actual cattle exports, however, have been much lower, averaging 517,000 head over the previous five seasons.

COTTON AND FIBERS

YUGOSLAVIAN Demand for Cotton Falling. Yugoslav trade statistics and press reports indicate that during the current marketing year, cotton imports will be down from the USDA import figure of 613,000 bales for 1985/86. Demand is reported slack due to declining sales of fabrics and garments. Imports may drop to 535,000 bales in 1986/87. Yugoslavia has a bilateral trade agreement with the USSR to purchase over 370,000 bales of cotton from the Soviet Union.

-more-

WORLD Cotton Stocks Reduced. Forecast 1986/87 world carryout stocks of cotton have been reduced to reflect smaller than anticipated crops in China and India. World stocks are now estimated at 39.6 million bales, 3 percent below the December estimate of 41.0 million bales. Current reports indicate Chinese stocks may drop to 14.2 million bales and Indian stocks to 2.4 million bales. Countries expected to hold the largest 1986/87 carryout stocks are China, the United States, Brazil, Soviet Union and India. The largest reductions in stock levels this season are expected in China and the United States.

FRUITS

Record Deciduous Fruit and Grape Crops Forecast in the Southern Hemisphere. Deciduous fruit and table grape production in the Southern Hemisphere is forecast at a record 4.6 million tons during the 1987 season, 19 percent greater than the volume harvested last season. Most of the increase can be attributed to preliminary projections of the following record crops: apples in Argentina, Chile, New Zealand and South Africa; pears in Argentina, Chile and South Africa; peaches, nectarines and table grapes in Chile. With the exception of Australia, growing conditions during the 1987 season were generally favorable. Given the continuing expansion in bearing area and yields, long term production growth appears likely throughout the Southern Hemisphere.

1/ Apples and pears actually crop years 1984/85, 1985/86 and 1986/87. Stone fruits and table grapes are calendar years as specified. Data for plums/prunes no longer available.

2/ Forecast.

NOTE: Dashes indicate production not available.

WOOD AND WOOD PRODUCTS

U.S. Solid Wood Exports Up. During the period January-November, U.S. solid wood products exports reached \$2.7 billion, up 10 percent over the same period in 1985. Compared to the same period last year, exports of softwood lumber increased 26 percent to \$571.0 million while softwood plywood jumped 70 percent to \$110.6 million. However, these gains were offset by declines in other softwood commodities so exports of softwood products experienced only a 5-percent increase to \$1.9 billion over the same period last year. Exports of hardwood products, on the other hand, increased 26 percent to \$500.0 million. U.S. exports of solid wood products are expected to reach \$3.0 billion by year's end.

U.S. exports of solid wood products to China dropped 46 percent to \$168.0 million during the January-November 1986 period. U.S. exports to Australia declined 26 percent to \$44.8 million. U.S. solid wood products exports to Japan increased to \$1.1 billion, up 16 percent. Other major importers of U.S. solid wood products with increases over the January-November 1985 period were: Korea (\$128.8 million, 16 percent); West Germany (\$115.3 million, 27 percent); Taiwan (\$114.1 million, 72 percent); United Kingdom (\$86.3 million, 56 percent) and Italy (\$80.0 million, 30 percent).

U.S. imports of Canadian softwood lumber in November 1986 were \$131.9 million, down 36 percent from the November 1985 figure of \$205.1 million. The impact of the U.S. countervailing duty on Canadian softwood lumber imposed in November was probably less significant than the impact of the Canadian mill strikes which were not resolved until December. However, during the period of January-November, U.S. imports of Canadian softwood lumber were up 4 percent to \$2.7 billion over the same period last year.

CREDIT NOTES

GSM-102 and 103 Actions Announced for IRAQ and MOROCCO. USDA announced an additional \$376 million in GSM-102 credit guarantees (all 3-year) and \$30 million in GSM-103 intermediate credits (4- to 5-year coverage). The GSM-102 announcement covered 14 different commodities, including wheat and rice (\$75 million each), corn (\$63 million), protein meals, including meat/bone meal (\$46 million), wood products (\$22 million), and sugar, frozen poultry meat and cotton/cotton yarn (\$20 million each). The GSM-103 program covers hatching eggs (\$12 million), table eggs (\$8 million) and protein concentrates (\$10 million).

On January 15, USDA made available an additional \$25 million in GSM-103 intermediate term credit guarantees for sale of U.S. wheat to Morocco in fiscal 1987.

-more-

COSTA RICA and JAMAICA Sign Public Law 480 Agreements. On January 14, Costa Rica signed its fiscal 1987 Title I Public Law 480 agreement providing \$16 million for about 129,000 tons of wheat. On January 15, Jamaica signed its Title I agreement providing \$27.6 million for 88,000 tons of corn/sorghum, 32,000 tons of rice and 109,000 tons of wheat.

Section 416 Actions Announced for EL SALVADOR and HONDURAS. USDA signed two agreements providing Section 416 commodities as compensation for reduced U.S. sugar quota levels in 1987. These agreements will provide approximately 34,864 tons of corn to El Salvador and 19,369 tons of wheat to Honduras.

EXPORT ENHANCEMENT INITIATIVES

The status of USDA's Export Enhancement Program as of Jan. 19, 1987, was as follows in metric tons:

ANNOUNCED INITIATIVES	DATE ANNOUNCED	QUANTITY/RESULTS
60. Iraq wheat	Jan. 16, '87	800,000
59. Switzerland barley or sorghum	Jan. 16, '87	250,000
58. Poland wheat	Jan. 7, '87	500,000
57. Poland barley or sorghum	Dec. 31, '86	200,000
56. Romania wheat	Dec. 23, '86	250,000
55. Iraq poultry	Dec. 22, '86	30,000
54. Dominican Republic table eggs	Dec. 9, '86	25 million Sold 4.3 million
53. Zanzibar wheat flour	Dec. 9, '86	20,000
52. Tunisia barley	Dec. 1, '86	150,000
51. Gulf countries (Bahrain Kuwait, Oman, Qatar, United Arab Emirates) dairy cattle	Oct. 30, '86	1,500 head
50. West Africa (Cameroon Cote d'Ivoire, Ghana, Togo) wheat	Oct. 30, '86	345,000
49. Dominican Republic poultry	Oct. 29, '86	1,500 Sold 1,133
48. Philippines barley malt	Oct. 20, '86	60,000 Sold 25,000
47. Cameroon wheat flour	Oct. 14, '86	20,000
46. Romania barley	Sept. 24, '86	200,000 Sold 125,000
45. Venezuela barley malt	Sept. 4, '86	100,000
44. Cyprus barley	Aug. 26, '86	150,000 Sold 75,000
43. Canary Islands wheat	Aug. 8, '86	100,000
42. Egypt semolina	Aug. 6, '86	30,000 Sold 15,000
41. Soviet Union wheat	Aug. 1, '86	4,000,000 EXPIRED
40. Canary Is. dairy cattle	July 28, '86	3,000 head

Do you need information about

- Overseas markets and buying trends?
- New competitors and products?
- Trade policy developments?
- Overseas promotional activities?

Then **Foreign Agriculture** — USDA's fact-filled monthly agricultural trade magazine — is for you. Based on official USDA data available nowhere else, **Foreign Agriculture** articles are clear and crisp, written to provide the export information you need, in a concise and extremely readable form.

Special information is found in **Foreign Agriculture**'s telegraphed, targeted news departments: Fact File, Country Briefs, Trade Updates and Marketing News. And its tables and graphs will give you an immediate grasp of what's going on overseas.

In addition, periodic special issues—such as the one devoted entirely to value-added exports—will give you a wide range of detailed information about overseas markets.

If you use agricultural facts and figures in your business, you need **Foreign Agriculture**.

Subscribe today! Just \$11.00 (\$13.75 for foreign delivery) brings you Foreign Agriculture for 12 full months.

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE.
